**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule, correction.

**SUMMARY:** This action corrects a final rule published in the **Federal Register** on August 23, 2018, amending Class D airspace and Class E airspace extending upward from 700 feet or more above the surface at New Smyrna Beach Municipal Airport, New Smyrna Beach, FL. Also, a parenthesis was excluded from the airport's geographic coordinates.

**SUPPLEMENTARY INFORMATION:****History**

The FAA published a final rule in the Federal Register (83 FR42585, August 23, 2018) for Doc. No. FAA-2018-0328, amending Class D airspace, and Class E airspace extending upward from 700 feet or more above the surface at New Smyrna Beach Municipal Airport, New Smyrna Beach, FL. Subsequent to publication, the FAA found that the symbols of the longitude coordinate for Massey Ranch Airpark, listed in the description under Class E airspace extending upward from 700 feet or more above the surface, was printed incorrectly. Also, a parenthesis was omitted from the geographic coordinates of New Smyrna Beach Municipal Airport. This action corrects these errors.

Class D and E airspace designations are published in paragraphs 5000 and 6005, respectively, of FAA Order 7400.11B dated August 3, 2017, and effective September 15, 2017, which is incorporated by reference in 14 CFR Part 71.1. The E airspace designations listed in this document will be published subsequently in the Order.
